

NEVER A CLOUDY DAY

GROW LIGHT

The easy-to-install LEDVANCE Grow Light is the complete solution for green houses and vertical farms. Grow Light takes the place of natural light and helps promote plant growth all year-round. It lets you grow fresh, undamaged produce avoiding setbacks in food production brought on by seasonal temperature highs and lows, along with extreme weather patterns, such as droughts and floods. Grow Light lets you maximize growth during fruiting stage. Grow Light also generates less heat for longer life and lower maintenance costs than traditional grow lights.

PERFORMANCE CLASS

LEDVANCE LLC
181 Ballardvale Street, Suite 203
Wilmington, MA 01887 USA
