SAFE, SECURE, SUSTAINABLE
OUTDOOR LIGHTING SOLUTIONS

CONTENTS

LIGHTING IS WHAT WE DO BEST

LEDVANCE is a world leader in innovative lighting products, as well as intelligent and connected lighting solutions.

Active in more than 140 countries, we are proud of our long-standing reputation for providing total lighting system solutions. Our singular focus on lighting enables us to provide the best solutions to meet the needs of all of our customers.

LEDVANCE PORTFOLIO

PRODUCT CLASS SEGMENTATIONS

SUPERIOR CLASS™

Sometimes only the best will do. In the LEDVANCE Superior Class, you'll find premium products that set standards in technology, quality and design coming in the near future. These impressive, top-of-the-line products are the right choice for your most demanding, prestigious projects, or those with unique lighting requirements.

PERFORMANCE CLASS™

The LEDVANCE Performance Class offers proven, reliable solutions for most of your lighting tasks. Our core portfolio includes a wide range of high-quality, demand-oriented luminaires with excellent performance in terms of lifetime, efficiency, material and quality of light. Features such as easy installation and comprehensive guarantees add extra value.

VALUE CLASS™

For excellent performance at an attractive price, choose the LEDVANCE Value Class. The luminaires in this range are characterized by a standard lifetime, efficiency and quality of light – making them the right choice for everyday installation needs and projects where reliability and cost-effectiveness are top priorities.

A FULL PORTFOLIO
OF OUTDOOR PRODUCTS

Whatever your outdoor lighting needs –
from the largest industrial installation
to retail facilities to sports fields –
LEDVANCE has the dependable,
high performance products you need
to get the job done on time and on
budget. Choose from eight product
families, including:

– Wall Packs
– Area Floods
– Post Tops
– Floodlights
– Sports Lights
– Canopies
– Garage Lights
– Decorative Outdoor Lighting

You'll find them all in this guide, along
with links to detailed selection, ordering
and installation information.
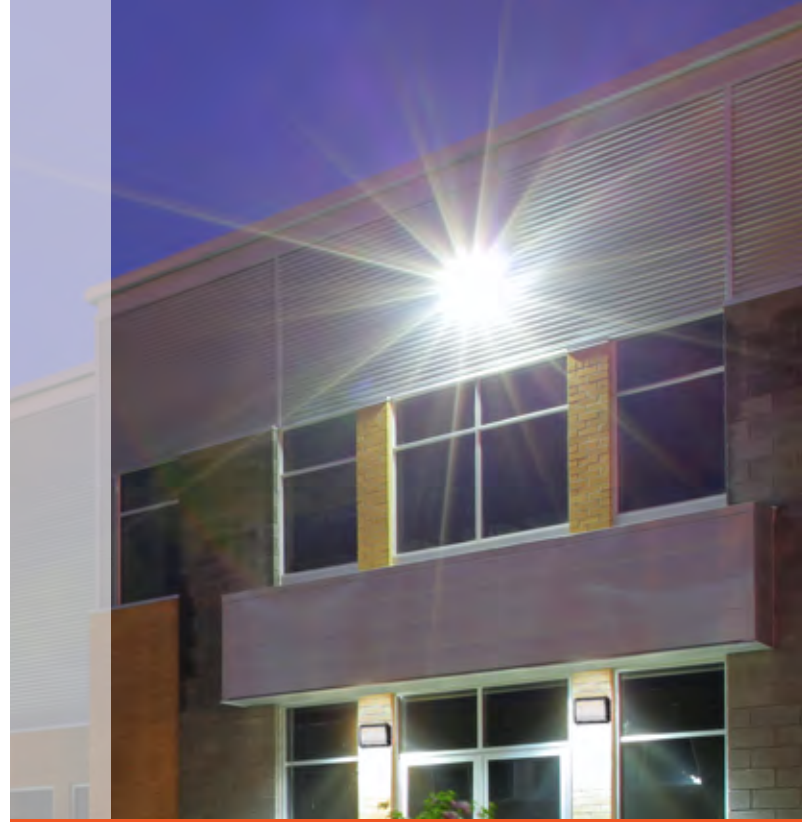

QUICKER, EASIER SELECTION

Every job has its choices, and no matter what the lighting task, the right product selection is an important part of customer satisfaction – and profitability.

To help you quickly find the best lighting product for a specific job, within several of our outdoor lighting families you'll find three tiers of products.
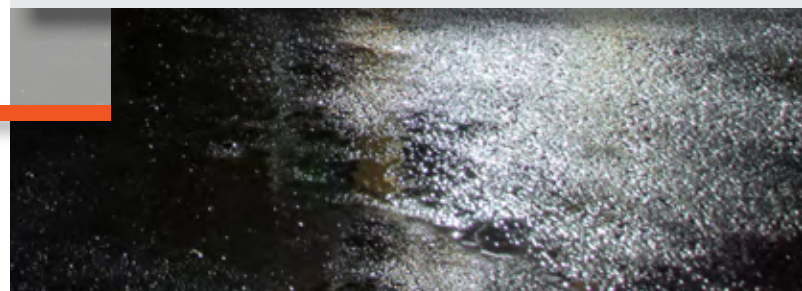

DUAL SELECTABLE NON-CUTOFF WALL PACK

SUPERIOR CLASS™

Want to create a higher end, sleeker look within a traditional footprint? The SUPERIOR CLASS NON-CUTOFF WALL PACK is the answer, bringing form and function together to create the ideal luminaire for your specification grade projects. The traditional footprint saves time and lowers installation costs; integrated photocell and optional Bluetooth® low energy mesh technology enabled sensor options allow for additional energy savings on this already-efficient LED wall pack.

Scan or click for detailed specifications, ordering and installation information.

DUAL SELECTABLE JELLY JAR

VALUE CLASS™

The LEDVANCE VALUE CLASS JELLY JAR is both wattage and color selectable, and includes the new FLEX MOUNT capability that allows for wall, ceiling, and pendant mount—all in one fixture. A rugged glass lens and cage make it a suitable choice for extreme environments, and 120-347V rating increases application versatility.

Scan or click for detailed specifications, ordering and installation information.

5Y
WARRANTY

CONTRACTOR BENEFITS

– Wattage and CCT selectability allows flexibility on the job site and simplifies inventory management

– FLEX MOUNT capability allows for wall, ceiling, or pendant mounting

– Optional red, blue, green, yellow, and frosted lenses for low visibility areas

FLEXMOUNT

DUAL SELECTABLE JELLY JAR

FLEX**MOUNT**

Adjustable mounting
Wall, ceiling, or pendant mount in one fixture

Accessories: Red, blue, green, yellow or frosted lenses
Allows for visibility in low light areas

Dual selectable
Allows customization based on the application and helps minimize inventory

DUAL SELECTABLE BOLLARD

PERFORMANCE CLASS™

The LEDVANCE BOLLARD lets you choose between 90˚, 180˚, 270˚ and 360˚ light distribution right in the field, making it an ideal solution for pathway and outdoor applications. Incorporating a new LEDVANCE design, they are offered in two versions: full 360° illumination pattern, or with our innovative OPTI-SELECT illumination zones.

Scan or click for detailed specifications, ordering and installation information.

DUSK TO DAWN

VALUE CLASS™

Ideal for retrofit applications as well as new construction, the VALUE CLASS DUSK TO DAWN luminaire is an easy-to-install, cost-effective choice for general area lighting, yards, docks, barns, service roads, and security lighting. With a compact, lightweight design, the luminaire presents a traditional appearance, while also offering all of the energy saving benefits of the latest LED technology.

Scan or click for detailed specifications, ordering and installation information.

5Y
WARRANTY

CONTRACTOR BENEFITS

– Wattage and CCT selectability allows flexibility on the job site and simplifies inventory management

– Polycarbonate lens, IK08 rating and IP65 rating ensure a durable and long-lasting fixture

– Includes NEMA photocell for additional energy savings

POLES

LEDVANCE offers a wide array of outdoor luminaire installation options for new or existing projects. With three types of poles in multiple mounting heights and a variety of bracket options, we have a solution for virtually any installation need.
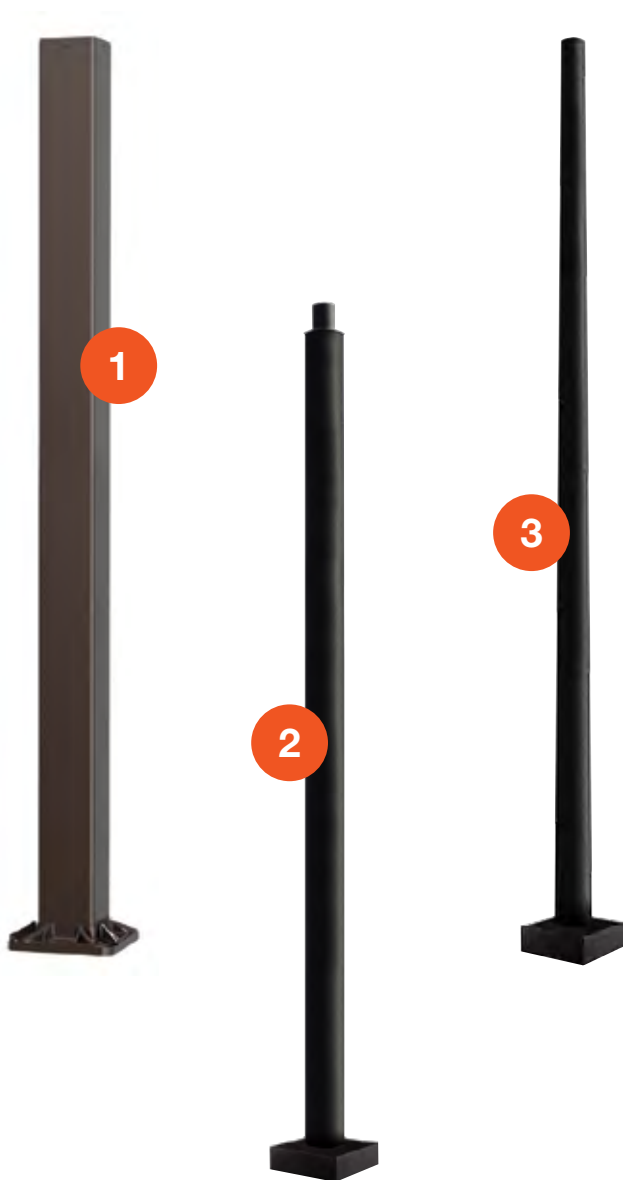

(1) LEDVANCE SQUARE STEEL POLES

LEDVANCE SQUARE STEEL POLES are offered in 8', 12', 15', 17', 20', 25' and 30' heights. Mounting configurations include tenon top, drilled for one, two, three, or four fixtures. The poles will cover all your mounting needs from floodlights to area lights. Ideal for parking lots, outdoor storage areas, and any open space needing illumination.

Benefits and Features

- Available in seven heights:
  8', 12', 15', 17', 20', 25' and 30'
- 8'-25' are 4" square; 25'-30' are 5" square
- 8'-25' are offered in 11 gauge
  25'-30' are offered in 7 gauge
- Fabricated from the highest grade structural steel

Specifications

- Square Steel Pole with powder coat paint; standard color is bronze
- Polycarbonate spring loaded top cover
- Reinforced 2.5" x 4.5" cast iron hand-hole with ground screw included
- Easily secured base cover included
- Bolt circle template included

2 LEDVANCE STRAIGHT ROUND ALUMINUM POLES

LEDVANCE STRAIGHT ROUND ALUMINUM POLES are offered in 12', 20' and 25' heights. Mounting configurations include tenon top, drilled for one, two, three or four fixtures. The poles will cover all of your mounting needs from post tops to floodlights to area lights. Ideal for parking lots, parks and pedestrian walkways, outdoor storage areas, small sports lighting and any open space needing illumination.

Benefits and Features

– Poles available in three heights: 12', 20' and 25'
– 12'-20' are 4" diameter; 20' and 25' are 5" diameter
– Uniform wall thickness of 0.196" (5mm)
– Fabricated from 6063 Aluminum Alloy with T6 Temper
– Die cast anchor base from 356 Aluminum Alloy

Specifications

– Round Smooth Aluminum Poles with powder coat paint; standard color is black
– Anchor bolts included
– Reinforced 3" × 5" die cast aluminum hand hole with cover and ground screw
– Drilled poles include UV-stabilized polycarbonate spring loaded top cover
– Easily secured 2-piece base cover included
– Bolt circle template included

3 LEDVANCE ROUND TAPERED STEEL POLES

LEDVANCE ROUND TAPERED STEEL POLES are offered in 15', 20' and 25' heights. Mounting configurations include tenon top, drilled for two or three fixtures. The poles will cover all of your mounting needs from post tops to floodlights to area lights. Ideal for parking lots, parks and pedestrian walkways, outdoor storage areas, small sports lighting and any open space needing illumination.

Benefits and Features

– Available in three heights:15', 20' and 25'
– Fabricated from the highest grade structural steel
– Conforms to ASTM-A-500 Grade B
– Minimum yield strength of 46,000 PSI

Specifications

– Round Tapered Steel Poles with powder coat paint; Black finish is standard for 15' and 20' poles; Bronze finish is standard for 20' and 25' poles
– Anchor bolts included
– Cast Iron 3" × 5" reinforced hand hole with cover and ground screw
– Drilled poles include black plastic pole cap
– Easily secured 2-piece base cover included
– Bolt circle template included

BRACKETS

Engineered to withstand harsh weather conditions and provide secure installation, LEDVANCE Steel Mounting Brackets come in a variety of sizes, shapes, and mounting configurations for flexible positioning, providing for multiple installation applications. They include single, double, triple, and quad configurations for mounting to LEDVANCE poles, walls, and retrofitting to existing poles.
