LEDVANCE

POWER THROUGH LIGHT

A close-up photograph of a woman with dark, curly hair and large hoop earrings. She is holding a glowing light bulb in her hand, which is positioned in the foreground, slightly out of focus. The light from the bulb illuminates her face and hair, creating a warm, golden glow. The background is dark and blurred.

A STRONG PARTNER IN THE LIGHTING INDUSTRY

LEDVANCE is a prominent player in the lighting industry, known for its innovative lighting products and smart, interconnected lighting solutions. Drawing from our comprehensive understanding of the general illumination market, current technologies, and evolving customer demands, we are committed to meeting the specific needs of both direct and indirect customers.

As a reliable local partner, we take an active role in supporting your efforts to impress customers with high-quality, long-lasting lighting concepts. Our aim is to help boost your lighting sales by offering attractive, user-friendly, and intelligent products.

Together, we can collaboratively shape the future of light – with agility, courage, speed, and flexibility. Join us on this journey as we pave the way towards a brighter tomorrow.

OUR STRENGTHS ARE YOUR ADVANTAGE

COOPERATIVE

As a dedicated and collaborative partner, LEDVANCE boasts a vast, worldwide sales team and over a century of experience, ensuring we stand by your side at all times.

VERSATILE

Modern, smart, decorative, functional, robust and practical – our extensive portfolio meets customer requirements in all categories and virtually every area of application.

SALES-BOOSTING

Attract attention, encourage purchases. We offer targeted support for your sales with creative, pre-tested marketing concepts.

CARING

We are committed to contributing to a greener planet by reducing CO₂ emissions and waste through sustainable products, solutions and processes. We empower our customers to use light more efficiently to save energy and reduce their environmental footprint.

UNIQUE

Fresh, dynamic, high-quality and bold – we know at an early stage what interests customers and where lighting trends are heading. LEDVANCE is unmistakably LEDVANCE.

INNOVATION MEETS TRADITION

We embody progress and the passion to shape the future of lighting actively. By blending our courage to explore new paths with our experience from more than 100 years of lighting expertise, we lead the way forward.

ALL IN ONE

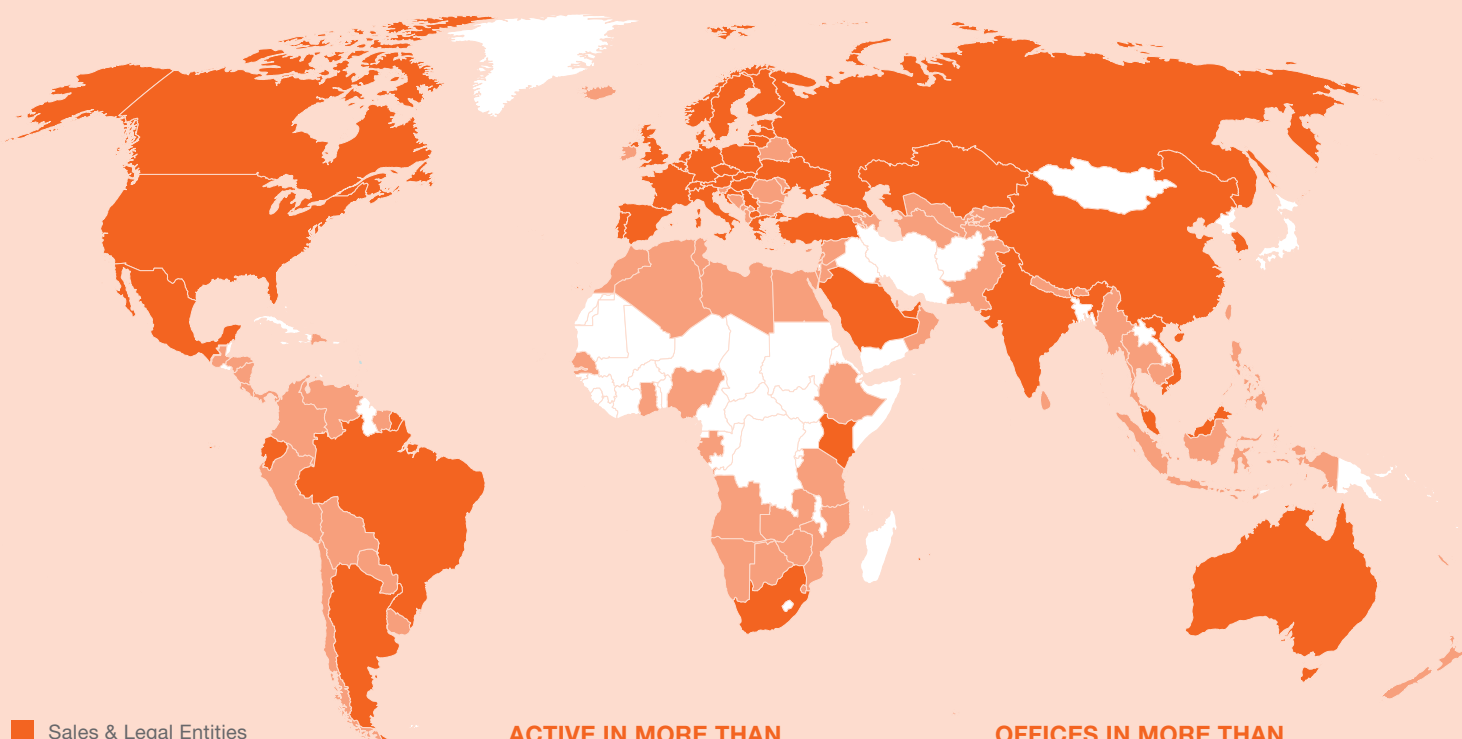

At LEDVANCE, we've got everything you need from a single source – LED luminaires, lamps, and Smart Home products. We offer you a wide range of innovative and market-driven solutions, setting new trends along the way.

FIRST-CHOICE PARTNER

As the perfect strategic ally, we offer an extensive portfolio, a robust sales network, and unparalleled global market access to fulfill all your requirements.

SOLAR LUMINAIRES

Step outside to a world that shines with LEDVANCE SOLAR LUMINAIRES, where the natural power of the sun meets the ingenuity of eco-friendly innovation to illuminate your outdoor spaces. LEDVANCE presents a curated selection of solar-powered lighting solutions that combine elegance with efficiency, designed to free you from traditional power sources. Experience the fusion of intelligent design and cutting-edge solar technology that promises durability, smart control and versatility.

Our luminaires ensure that your gardens, pathways and architectural features are not just lit, but transformed into vibrant, atmospheric spaces. Compatible with smart devices for easy management, they provide reliable lighting from dusk to dawn on a single charge. With robust protection ratings of IP44 or higher, our designs can withstand the elements, enhancing the reliability and beauty of your outdoor sanctuary.

SMART⁺ BLUETOOTH TABLE FRAME SOLAR

Experience the freedom of light, anywhere you go. Our innovative, solar-powered lamp illuminates your outdoor moments beautifully.

- Can be used without power: Thanks to the solar panel, the Bluetooth table light can also be used where no power is available.
- Durable: Offers up to 6.5 hours of illumination on a full charge, with battery status accessible via app; USB-C rechargeable.
- Smart control: Can be controlled with SMART⁺ smartphone app or smart speaker.
- Versatile: Suitable for power-independent outdoor applications, and creates an inviting ambiance.
- IP44 protection: Protection against contact, dust and water jets.

4 Total luminous flux of the contained light sources without the diffuser

SMART⁺ BLUETOOTH TABLE LANTERN SOLAR

Harnessing the power of the sun, LEDVANCE seamlessly blends efficiency with classic design.

- Can be used without power: Thanks to the solar panel, the Bluetooth table light can also be used where no power is available.
- Durable: Offers up to 5 hours of illumination on a full charge, with battery status accessible via app; USB-C rechargeable.
- Smart control: Can be controlled with SMART⁺ smartphone app or smart speaker.
- Versatile: Suitable for power-independent outdoor applications, and creates an inviting ambiance.
- IP44 protection: Protection against contact, dust and water jets.

SMART⁺ BLUETOOTH SOLAR ALPS

Bring your outdoor spaces to life, day or night, with our versatile solar-powered wall and path lights - where innovative design meets functionality.

- Can be used without power: Solar technology enables operation in areas lacking electrical power, enhanced by an efficient sensor for the lights.
- Durable: Offers a minimum of 2.5 hours of lighting after full charge, with the ability to check battery life via an app and easy recharging through USB-C.
- Smart control: Can be controlled with SMART⁺ smartphone app or smart speaker.
- Versatile: Perfect for outdoor settings without power access, ideal for illuminating house facades, garages, entrance areas, paths, and gardens.
- IP44 protection: Designed for the outdoors, this light is moisture-proof, ensuring protection against splash water from all directions.

SMART⁺ BLUETOOTH SPOT & BOLLARD WITH INDEPENDENT SOLAR PANEL

Illuminate your garden's beauty, day and night, with our versatile solar-powered spot and bollard light, blending elegance with efficiency.

- Can be used without power: Solar panel technology enables lighting in areas without electrical access, providing consistent illumination.
- Durable: Offers up to 10 hours of light on a dim setting, and a powerful 6.5 hours at full brightness, adaptable for various lighting needs.
- Smart control: Can be controlled with SMART⁺ smartphone app or smart speaker.
- Versatile: Perfect for outdoor settings requiring independent power sources, and excellent for creating ambient or accent lighting around plants or trees.
- IP44 protection: Designed for the outdoors, featuring robust moisture-proofing against splashing water from all directions.

A modern, two-story house with a white facade and a section of vertical wooden slats. The house is illuminated from within, and a balcony with a glass railing is visible. In the foreground, a green lawn is lit by a solar-powered spike spotlight, which is shown in two positions: one pointing upwards and one pointing downwards. The sky is a deep blue, and trees are visible in the background.

SMART⁺ BLUETOOTH SOLAR SPOT LIGHT

Smart, sleek and easy to control, our solar-powered spike spotlight will transform your outdoor lighting.

- Can be used without power: Solar panel technology enables operation in areas without electrical access.
- Durable: Up to 8 hours of light per charge, with battery life visible in the app.
- Smart control: Can be controlled with SMART⁺ smartphone app or smart speaker.
- Versatile: Suitable for power-independent outdoor applications, also ideal for ambient lighting.
- IP44 protection: Designed for the outdoors, safeguarded against moisture and splash water ingress from all sides.

ENDURA® STYLE SOLAR GLOW PIR SENSOR

Enhance your outdoor ambiance with our solar-powered, sensor-equipped wall luminaire.

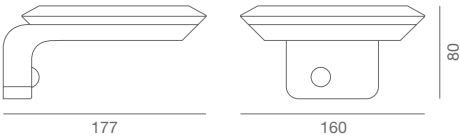

- Can be used without power: Equipped with a solar panel for operation in areas lacking electrical access, featuring an efficient integrated sensor.
- Durable: Offers a significant burn time of 60 times 30 seconds in PIR mode, with a battery recharge time of just 8 hours.
- Long life: The solar wall light has a lifespan of up to 25,000 hours, making it both a long-lasting and energy-efficient solution.
- Versatile: Ideal for various outdoor settings, perfect for illuminating house facades, garages, and entrance areas.
- IP44 protection: Designed for the outdoors, safeguarded against moisture and splash water ingress from all sides.

A photograph of a modern architectural courtyard at dusk. On the left, a long, low concrete wall features a series of vertical, rectangular light fixtures. A single spotlight on the wall is illuminated, casting a green glow. To the right, a large, leafy tree stands in the center of the courtyard. In the background, a glass-enclosed structure, possibly a greenhouse or conservatory, is visible, with warm interior lights glowing through the glass. The ground is a dark, reflective surface, and the sky is a pale, hazy blue.

ENDURA® FLOOD BUTTERFLY SOLAR

Bring your outdoor spaces to life with our versatile, solar-powered floodlights – bright, efficient, and crafted for convenience.

- Multifunctional: Features a unique butterfly design, equipped with PIR motion and daylight sensors, emitting cold white light.
- Sustainable: Eco-friendly operation using solar power, with a rechargeable battery for consistent, off-grid lighting.
- Long life: Offers an extended lifespan of up to 36,000 hours, providing luminous intensity while being energy-efficient.
- Instant & flexible use: Designed for quick and easy installation, suitable for various outdoor settings.
- IP65 protection: The LED floodlight is IP65 rated, making it ideal for lighting facades, garages and gardens.

ENDURA® FLOOD SOLAR DOUBLE SENSOR

Empower your outdoor spaces with robust illumination! The powerful solar floodlight is designed to cast a bright light wherever you need it.

- Solar powered: Equipped with a built-in sensor, this solar-powered LED floodlight can also be used where no power is available.
- Long life: Offers an extended lifespan of up to 36,000 hours, providing luminous intensity while being energy-efficient.
- Long runtime: Reliable battery life lasts up to four hours at full brightness, with an intelligent lighting mode extending to eight hours.
- Versatile: Powerful outdoor floodlighting ideal for gardens, driveways, and other exterior areas needing strong light.
- IP65 protection: Designed for outdoor resilience, offering protection against moisture and splash water from all directions.

HYBRID LUMINAIRES

Enjoy the versatility of LEDVANCE HYBRID LUMINAIRES, designed to blend seamlessly into your outdoor landscape. This innovative range offers the flexibility to power up with solar energy or connect to the mains, ensuring consistent lighting even when the sun sets. Switch between them with ease to suit your lighting requirements.

Easy to install with plug-and-play connectivity, these luminaires require no professional expertise, making them a simple yet effective addition to your exterior spaces. The system comes with a variety of accessories, including adaptable connectors and energy-efficient solar panels for a custom outdoor setup.

Prioritizing safety with low-voltage operation, these luminaires are crafted to safeguard both humans and animals. The IP44 protection of the luminaires ensures durability against the elements, making them perfect for gardens, patios, and walkways. LEDVANCE HYBRID LUMINAIRES bring together practicality and adaptability for a brilliantly lit outdoor environment.

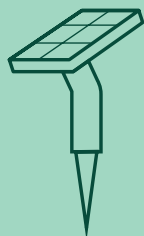

MODULAR LED LIGHTING SYSTEM WITH HYBRID POWER SUPPLY

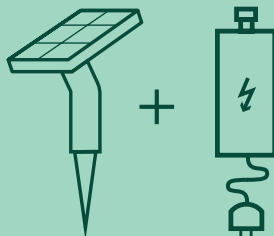

- Simple connection with plug connectors enables tool-free installation
- The system can be powered either via a transformer, a solar panel or both in combination with power supply
- When the solar panel battery is empty, it automatically switches to mains power (if connected)
- Select max. 6 luminaires, which combined may reach a maximum of 24 watts

SMART+ OUTDOOR LUMINAIRES

LEDVANCE SMART+ OUTDOOR LUMINAIRES combine the latest technology with the serenity of nature to create an enchanting outdoor experience. This innovative collection transforms your garden, patio and backyard into a vibrant palette of colors, offering both the soothing warmth of adjustable white light and a canvas of 16 million RGB colors to tailor the ambiance to any outdoor occasion.

Control is effortless, thanks to smart WIFI connectivity that enables seamless integration with voice commands, smartphone apps, and popular smart home systems. Designed with durability in mind, each fixture is rated IP44 or higher to ensure it can withstand the elements.

From illuminating pathways to setting the stage for backyard festivities or creating a serene evening retreat, LEDVANCE SMART+ OUTDOOR LUMINAIRES are your partners in creating sophisticated outdoor living spaces that adapt to your every mood and moment.

SMART⁺ WIFI STRING LIGHT

Turn your backyard into a vibrant oasis with our SMART⁺ WIFI String Light, which offers a world of color and smart control.

- Ideal light: Integrated LED module with two light modes: Adjustable white light and RGB color light perfect for creating a unique ambiance with 16 million color options.
- Varied: A classic outdoor string light with 12 individually controllable lamps, allowing for customized lighting settings.
- Smart control: Can be controlled with SMART⁺ WiFi remote control, smartphone app, or smart speakers like Alexa and Google.
- Long life: Up to 15,000 hours of energy-saving, long-lasting performance.
- IP44 protection: Designed for outdoor environments, ensuring moisture-proof protection against water splashes from all sides.

A photograph of a smart table lamp on a wooden table in front of a window at night. The lamp is a rectangular, black-framed device with a glowing green light. A smartphone is connected to it via a cable. The background shows a white wall with two large, multi-paned windows. The interior lights are on, and the exterior is dark. A hat and some plants are visible on the table.

SMART⁺ WIFI TABLE FRAME

With a spectrum of 16 million colors to match any mood or moment, our mobile, smart-controlled table lamps can set the stage anywhere.

- Varied: Choose between a warm white glow or vibrant RGB color lighting to enhance any ambiance with 16 million color options.
- Battery powered: Completely mobile and independent, this table light doubles as a power bank, ready to use wherever you go.
- Smart control: Can be controlled with SMART⁺ WiFi remote control, smartphone app, or smart speakers like Alexa and Google.
- Long life: Up to 25,000 hours of energy-saving, long-lasting performance.
- IP44 protection: Designed for outdoor environments, ensuring moisture-proof protection against water splashes from all sides.

SMART⁺ WIFI ROTARY UPDOWN

Embrace the future of outdoor lighting with this versatile wall luminaire, offering dynamic lighting options and smart integration.

- Varied: Offers an integrated LED module with dual lighting modes, including warm white light at 3000K and an array of 16 million RGB colors.
- Flexible: Directional luminaire head to tailor the lighting direction to your specific needs.
- Smart control: Easily managed via SMART⁺ WiFi remote, smartphone app, or smart speaker. Compatible with Alexa, Google and others. It can also be operated by a light switch.
- Long life: Ensures up to 25,000 hours of energy-saving, long-lasting light.
- IP44 protection: Designed for outdoor use, offering comprehensive moisture-proof protection against water splashes from all angles.

A modern outdoor courtyard at dusk. The ceiling is made of horizontal wooden slats. The walls are a mix of concrete and large glass panels. On the left, a concrete wall features three square wall sconces that cast a bright green beam of light. The glass walls reflect the interior of a house, which has a wooden floor and a staircase. Outside, there are palm trees and a clear blue sky. The overall atmosphere is sophisticated and contemporary.

SMART⁺ WIFI BEAM ADJUSTABLE WALL

With its customizable colors and smart tech compatibility, our state-of-the-art outdoor wall luminaire sets the stage for every evening.

- Ideal light: Integrated LED with adjustable white (3000K-6500K) and 16 million RGB colors for perfect ambient lighting.
- Varied: With adjustable shutters to adjust the lighting to personal needs.
- Smart control: Easily managed via SMART⁺ WIFI remote, smartphone app, or smart speaker. Compatible with Alexa, Google and others.
- Long life: Up to 30,000 hours of energy-saving, long-lasting light.
- IP44 protection: Designed for outdoor use, offering comprehensive moisture-proof protection against water splashes from all angles.

A man and a woman are standing in a modern doorway, smiling. The man is wearing a blue denim jacket over a black t-shirt and dark jeans. The woman is wearing a white cable-knit sweater and dark leggings. They are standing on a light-colored tiled floor. The doorway is framed by a dark brick wall. On either side of the doorway, there is a small, square, black smart light fixture mounted on the wall, which is illuminated with a warm, yellow light. The interior of the house is visible through the doorway, showing a staircase with wooden steps and a white railing. The overall atmosphere is warm and modern.

OUTDOOR LUMINAIRES

Discover the benefits of LEDVANCE OUTDOOR LUMINAIRES, which combine energy-saving properties, elegant design and practical functionality for outdoor lighting. Our extensive range of outdoor lights includes everything from elegant table lamps to powerful floodlights, charming garden lanterns to smart sensor lights and more. Whether you're looking to add a warm glow to your garden paths, a splash of radiance to your facade, or reliable illumination for security, our collection has you covered.

Made from high-quality materials like aluminum and glass, our luminaires are built for durability and consistent performance. Features such as adjustable heads and garden spikes allow for customized illumination, ensuring every corner of your outdoor space is perfectly lit. With IP44 to IP65 protection, they offer reliable weather resistance.

Create a safe, inviting and beautifully lit atmosphere with LEDVANCE outdoor lighting.

A photograph of a modern outdoor patio at night. In the foreground, a light-colored wooden table is partially visible. On the table sits a minimalist, modern lamp with a white, conical shade and a thin white stem. The background shows a covered patio area with a white sofa and a small, glowing lantern. Large glass doors lead into a brightly lit interior space. The overall atmosphere is warm and contemporary.

ENDURA® STYLE RING

Technical drawing of a circular object, likely a cross-section of a pipe or cylinder. The drawing shows two concentric circles. The outer circle represents the outer diameter, and the inner circle represents the inner diameter. A dimension line is drawn below the circles, indicating the outer diameter as $\varnothing 202$.

A man with a grey beard and hair is sitting on a metal chair on a stone patio at night. He is wearing a dark jacket over a light-colored shirt and jeans, and is reading a book. To his left is a small round metal table with a glass of water and a bowl. The patio is in front of a large arched glass door that looks into a warmly lit interior with stone walls and arches. A small potted plant is on the left, and a wall sconce is lit. The overall mood is cozy and sophisticated.

A photograph of a modern building's exterior at dusk. The building features a wall made of rough-hewn, light-colored stone. Two dark, rectangular recessed areas are visible in the stone wall. Two oval-shaped outdoor lights, with dark frames and glowing white interiors, are mounted on the stone wall. A dark, cylindrical pillar stands in the foreground. The ground is a mix of green grass and light-colored paving stones. The sky is a deep blue.

FLOODLIGHTS

Illuminate your outdoor spaces with powerful precision with LEDVANCE FLOODLIGHTS, engineered to brighten the darkest corners with ease. Combining high performance lighting with a robust design, our floodlights are suitable for a wide range of outdoor applications, each ensuring a safe and well-lit environment.

The addition of SMART⁺ Floodlights within the range brings connectivity and convenience to the forefront, allowing seamless control over lighting intensity and schedules. With their easy installation, energy-efficient LEDs, durable materials, and advanced sensor technology, these lights are ideal for security, aesthetic spot lighting, and general outdoor illumination.

Designed with versatility in mind, our floodlights are available in a variety of beam angles and brightness levels, all with high IP ratings for excellent weather resistance. Step into a well-lit world of safety and visibility with LEDVANCE's extensive selection of floodlights.

SMART⁺ WIFI FLOOD

Our high-capacity smart floodlights, perfect for any setting that demands dynamic lighting.

- Flexible light: Offers dimmable capabilities with both adjustable white and color lighting to suit personal preferences.
- Varied: Ideal for both practical and mood lighting, this floodlight ensures the right ambiance for every occasion.
- App & voice control: Effortlessly controlled via WIFI, smartphone app, or voice assistant for a seamless smart home integration.
- Versatile: The high-power floodlight can be used in various places such as sports facilities, gardens, courtyard entrances and facades.
- IP65 protection: Designed for both indoor and outdoor use, offering comprehensive dust and contact protection, and resistance to water.

A woman with long brown hair, wearing a dark blue quilted jacket, a bright yellow scarf, black leggings, and yellow sneakers with black stripes, stands next to a silver bicycle. She is positioned in front of a modern wooden structure with horizontal slats. A small, rectangular floodlight is mounted on the top of the structure, casting a warm glow. To the right, a large pile of cut logs is visible. In the background, a dark building with a lit window is partially visible. The ground is paved with dark cobblestones.

FLOODLIGHT ESSENTIAL SENSOR WITH EU PLUG

Easily improve the safety of your outdoor space with our sensor-activated floodlight that provides intelligent lighting.

- Practical: The floodlight provides homogeneous illumination thanks to its white, frosted diffuser.
- Versatile: Perfect for outdoor areas, enhancing the safety and visibility of facades, garages, and gardens.
- Long life: Up to 25,000 hours of energy-saving, long-lasting performance.
- Instant & flexible use: The floodlight is very quick and easy to install.
- IP65 protection: Robust against for all weather conditions, making it ideal for lighting facades, garages and gardens.

FLOODLIGHT ESSENTIAL SENSOR

Discover lighting that adapts to your needs; our LED floodlight range with motion detectors combines longevity with diverse lighting options.

- Efficient light: Floodlights with an integrated sensor for more energy efficiency.
- Varied: Adjustable beam angles allow for customized lighting setups.
- Lifetime: LED modules provide up to 25,000 hours of life, ensuring a long-lasting lighting solution.
- Easy installation: Designed for quick installation, the floodlights can be mounted on walls or ceilings with ease.
- Pleasant lighting: Features a white satined diffuser for glare-free, uniform light suitable for various applications.
- Versatile: Ideal for wide-ranging applications, from sports facilities to courtyard entrances.
- High-quality material: Constructed with durable aluminum and matte glass for consistent, quality lighting.
- IP65 protection: Offers comprehensive protection against contact and dust, ensuring safety and functionality indoors and out.

CAMERA LUMINAIRES

Combining the inviting warmth of outdoor lighting with advanced surveillance technology, our range of camera-equipped luminaires offers a greater sense of security and convenience. Each unit is designed to provide not only lighting, but also vigilance, with integrated cameras and speakers that detect and follow human movement while ignoring unrelated disturbances.

Enjoy the ease of smart control with the LEDVANCE SMART⁺ app, which allows you to manage your lighting and security from any Android or iOS device. These energy-efficient and long-lasting camera luminaires offer reliability and sustainability.

Built to last, with IP44 rated durability, they're equipped to handle wet conditions in outdoor areas such as entrances and facades. Choose from a variety of designs, from the ambient glow of security luminaires to the precision of floodlights, all enhancing your outdoor spaces with smart, sophisticated technology.

A photograph of a modern home's exterior. A dark red door with a large glass panel featuring horizontal blinds is set into a wall of vertical wood planks. To the right of the door, a sleek, white, cylindrical smart LED wall luminaire is mounted, emitting a warm glow. The luminaire also functions as a camera. To the right of the door, the wall transitions to horizontal white siding. In the foreground, a wooden bench with a green and white striped cushion is visible, along with a potted plant of white daisies. A pair of sandals sits on the ground near the door.

SMART⁺ WIFI CLOUD CAMERA

Enhance your home's exterior with our smart LED wall luminaire, merging warm illumination with cutting-edge camera surveillance for ultimate peace of mind.

- Pleasant light: Offers a warm white glow (3000K) for a welcoming outdoor atmosphere.
- Greater feeling of security: Features a camera and speaker with an 8m and 90° detection range, with storage options for recordings on a memory card or cloud.
- Smart control: Fully controllable via the LEDVANCE SMART⁺ app, compatible with both Android and iOS devices.
- Energy-efficient: With a sleek design and a long lifespan of up to 25,000 hours, this light is as enduring as it is energy-efficient.
- IP44 protection: Engineered for outdoor environments such as house entrances, providing robust protection against water splashes from all directions.

SMART⁺ WIFI GLOBE CAMERA TRACK & TRACE

Secure and illuminate your home's exterior with our globe camera luminaire, offering innovative track & trace technology for smart, responsive lighting.

- Track & trace: Advanced movement detection with auto-follow for human motion, avoiding unnecessary tracking of animals or other objects.
- Sustainable: Equipped with a polycarbonate housing, matte glass diffuser, and an E27 base for easy bulb replacement and long-term sustainability.
- Smart control: Fully controllable via the LEDVANCE SMART⁺ app, compatible with both Android and iOS devices.
- Greater feeling of security: Built-in camera and speaker with an extensive 8m and 180° sensor range, offering multiple storage options for recorded content.
- IP44 protection: Engineered for outdoor environments such as house entrances, providing robust protection against water splashes from all directions.

PRODUCT-SPECIFIC SYMBOLS

	Integrated LED module		Inline switch		Mounting height
	Replaceable LED lamp		Motion sensor		Extremely low-profile luminaires
	Dimmable		On/off and stepless dimming via infrared sensor		Linkable
	Works with remote control		On/off and stepless dimming via touch		Ceiling mounting
	Works with LEDVANCE WIFI Remote Control		Lamps not included		Powerbank
	With remote control for dimming function		Including high-quality OSRAM branded LED lamp		Tracklight system
	With remote control for color changing function		Backlight		Diffuse light
	Dimmable at wall switch		Rotatable luminaire heads		Flexible mounting
	Color change function at wall switch		Break-proof		Fast connector
	Control by light switch possible. Automatic pairing time 3 minutes		With solar panel		Adjustable head
	Works with voice assistants		CRI > 90		Pixel synchronization via HDMI
	Adjustable light temperature		Rechargeable lithium-ion battery included		Direct plug-in into TV
	Sensor range		Battery included		Cooling effect
	Sensor angle		USB included		Fan
	On/off automatic		COB LED		Max. 25 W
	Day/night sensor		Easy mounting		Center light
	Extension low voltage		USB charging cable included		Real wood
	Protection class 44		2 m cable and EU plug		Cool light
	SMART+ App		Open cable, 1 m in length		Turnable light
	Adjustable light temperature		Magnetic mounting		Do not throw away with household waste

PRODUCT-SPECIFIC SYMBOLS

	One spike light included		12 lamps included
	Adjustable beam angle		3 spike lights included
	Outdoor bollard luminaire with IP44 protection		50 cm height
	Outdoor spike luminaire with IP44 protection		5 spike lights included
	Outdoor solar panel with IP44 protection		3 spike lights included
	Outdoor cable with IP44 protection		Automatic on/off function
	Outdoor transformer with IP44 protection		Aluminum
	Easy connect system with IP67		Stainless steel
	Voice control supported		Rotatable luminaire head
	WIFI connection supported		Made from recycled paper
